MURRAY CORPORATION Clamping Solutions

NEW Everlast 20 Heavy Duty Seamless Clamps

"New clamping technology" Murray Heavy Duty Seamless Clamp suitable for use in marine and other aggressive water and atmospheric conditions. Resists salt and bilge water, common household cleaning agents, industrial/mining elements. Also resists clamp damage resulting from brass fitting dezincification in pex plumbing systems.

Many of our Pex (PEX) and Seamless (KVGT) clamps and Keystone (KSC) offer our patented crimp lobe technology. This feature ensures that the crimping tool is properly positioned to help eliminate miscrimps. Miscrimps often lead to leaks.
